Back in February 2019, three groups – Chinese Man, Scratch Bandits Crew and Baja Frequencia – retreated peacefully up the hills to compose together for a special anniversary. The idea: mix their diverse styles and inspirations by focusing on the spontaneity of their productions. The special occasion: the celebrations of the 15th anniversary of the label Chinese Man Records (CMR) coming up in 2020!

For the fans, the final result is coming up with the release of the album The Groove Sessions Vol. 5 which follows an exclusive live creation by these three thrilling groups. Joined by two explosive MCs - Youthstar and Miscellaneous (Chill Bump) - the artist combo reinvents and revisits the most famous tracks of the CMR label and reveals their new compositions. Mixing scratch music, trip-hop, dub and tropical rhythms.
